## LEVEL 1 / TRUCK STOP

You need a weapon, transportation, boots and clothes. Fortunately, your arrival point in the present is a truckstop that should satisfy all your needs. Unfortunately, the hospitality of the locals stops a little short of giving away their rides, their hardware, or the shirts off their backs. You have no alternative but to terminate anyone who gets in your way...especially if they're trying to use your head for a cue ball.

## T-800 TARGET ACQUISITION PROGRAM: VISUAL DISPLAY ARROWS INDICATE LOCATION OF HUMANS.

Once you've cleared the parking lot, go into the truckstop. There'll be a few more bikers looking for trouble, but it's the big guy you're looking for. He'll be less than enthusiastic about parting with his possessions or his dignity... Convince him.

## LEVEL 2 / DRAINAGE CANAL

To find the 10 year old John Connor, ride your Harley through the drainage canal. Avoid the obstacles and debris, or blow them away with the 10-gauge, but don't hang around. Right behind you is the T-1000 attempting to acquire its target with a 23,000lb. big-rig tow truck! If he gets too close for comfort, let fly with the lead, or you, John, and the future will be terminated.

**NOTE:** Opening the gates is essential to your success, but it is not an easy task. It will take practice. Don't just stop when your first shot hits; see what additional shots will do.

## LEVEL 8 / PESCADERO STATE HOSPITAL FOR THE CRIMINALLY INSANE

Sarah Connor is imprisoned in the hospital. The police caught her trying to blow up the Cyberdyne Systems building. When she told them that it was to stop machines from destroying the world, she was certified insane and locked up!

# Nintendo ENTERTAINMENT SYSTEM

Now John demands you rescue her. You know the T-1000 will be waiting for you (you would), but the future leader is adamant. (Humans?) Check every room until you find her.

John also orders you to stop killing people. However, the guards at the hospital will no

more believe your story than Sarah's. They will do whatever it takes to destroy you, but you must follow John's directive (MISSION PROGRAM 5 - OBEY JOHN CONNOR). Find a way to slow down your human opponents without terminating them.

**T-800 SEARCH PROGRAM : HIGH PROBABILITY ROOMS CONTAIN BONUS ENERGY / ADDITIONAL AMMUNITION / ELEVATOR SECURITY CARDS.**

**TO COLLECT ANY ITEM - Proceed to**

**TO ENTER A ROOM OR ELEVATOR** - Press the UP CONTROL PAD ARROW while standing directly in front of the appropriate doorway.

**Myth:** The successful transfer of Sprain Ewens from the State Hospital not only killed you in brutal pain, but also the more patients you knew, the better the surgeon you will get to take with you to the wilderness location.

## LEVEL 4 / CYBERDYNE SYSTEMS BUILDING...EASY MONEY

The only way to stop the development of SKYNET is to destroy it before it was born. Shut down Cyberdyne Systems, permanently. 10 barrels of high-explosives have been placed throughout the building. Take them to the 4th floor, up to three at a time and deposit them in the holding tank.

As soon as you deposit the 10th barrel, your Visual Display will indicate that the explosives have been charged and the countdown will begin. Within 80 seconds, distribute the barrels 2 at a time along the 4th floor laboratory and then clear out, pronto!

## LEVEL 5 / STEEL MILL HASTA LA VISTA, BABY!

With Cyberdyne destroyed, only one enemy remains...the T-1000. Reach the top of the mill and destroy that liquid lugnut any way you can, but beware! The T-1000's pursuit of its mission is relentless. It may disappear only to attack again. Put it out of action for good, or you and mankind are headed for history's scrapheap. You are the only hope. Terminate the terminator.

# Nintendo ENTERTAINMENT SYSTEM

## CYBERDYNE SYSTEMS T-1000 TERMINATOR

The advanced prototype is mimetic polyalloy (liquid metal). It can metamorpho- size into virtually anything. Hit it, and the liquid changes shape so fast that what was once a head is now a fist trashing the life out of you. Run from it, and it morphs into the ground only to come up right in front of you. Ever feel obsolete?

# Nintendo ENTERTAINMENT SYSTEM

## BATTERY LIFE

The T-800 is designed to run in an ideal world for 120 years, but being unstacked with a pool cue, crashed into a concrete drainage canal, plumped full of lead, and pulverized by a T-1000 are less than ideal conditions. If your energy is depleted, your CPU (Central Processing Unit) will shut down in order to regenerate. It shut down: YOU ARE TERMINATED.

## LIST OF EXCELLENCE

At the conclusion of your mission, if you have proved yourself to be as efficient a protector as a terminator, you can add your name to the List of Excellence.

TO SCROLL FORWARD THROUGH THE ALPHABET - Press the RIGHT CONTROL PAD ARROW.

TO SCROLL BACKWARD - Press the LEFT CONTROL PAD ARROW.

TO MOVE THE CURSOR RIGHT - Press the A BUTTON.

TO ERASE THE LAST LETTER ENTERED - Press the B BUTTON.

# Nintendo ENTERTAINMENT SYSTEM

## YOU ARE THE FUTURE

SCYNET designed you to wipe human life off the face of the planet. Now, you, a machine, are the hope of humanity. Fail in your mission and the clock on mankind stops August 29, 1997.

Find John and Sarah Connor. Obliterate Cyberdyne's reckless technology. The T-800 is man's evil sent back to haunt him. Stop the nightmare.

There is no time to waste. You are making up history as you go. The future is not set. It is now.

Many may still believe that the only way to protect the environment is to stop all development and industry. However, the reality is that the only way to protect the environment is to develop it in a sustainable way. This means that we need to find ways to use resources that are renewable and that we can use them without depleting them. This is the only way to ensure that we can live in a healthy and sustainable world for generations to come.
